how much you want to save.

Start saving
today

for your child's college education.

“I opened an account for my nephew. It’s a great way to give the whole family an opportunity to contribute on birthdays and holidays.”

The Payne Family, Olympia

GET helps families save

Life is full of firsts. You can prepare for future college costs by planning ahead. Saving, even a little at a time, can make a big difference down the road. The important thing is to start early and save often.

The Guaranteed Education Tuition (GET) Program is Washington’s 529 prepaid college tuition plan. It was established in 1998 to help families save for their students’ future higher education costs. The GET Committee governs the program, and the Washington Student Achievement Council administers the program. Since 1998, over 100,000 Washington families have opened GET accounts and over 50,000 students have already used their accounts to attend colleges, universities and technical schools nationwide. Here’s why:

State guarantee

The State of Washington guarantees that the value of your GET account will keep pace with resident, undergraduate tuition and state-mandated fees at Washington’s most expensive public university, no matter how much it changes in the future.¹ With GET, you don’t have to worry about the ups and downs of the stock market. You are assured that the money you invest in GET will be there when your child is ready for college.

Choice of colleges nationwide

The value of each GET unit is tied to the cost of resident, undergraduate tuition and state-mandated fees at Washington’s most expensive public university, but you can use your units to pay college costs practically anywhere in the country and even at schools around the world. Your GET account has the same monetary value whether your child attends a public university, a local community college or technical school, a private university, or a college in another state.

Tax-free growth and withdrawals

Because GET is a state 529 plan, the after-tax money you put in will grow tax-free. When your child is ready for college, the money you withdraw will be tax-free too, as long as you use it for qualified higher education expenses.²

Flexibility and control

You can use your GET account not only for tuition, but also for room and board, books, computers or other qualified expenses. If your child chooses not to go to college or receives a scholarship, you can transfer your account to another family member, hold on to your account in case plans change, save it for graduate school, or even request a refund.³ And, as the GET account owner, you always maintain complete control over the account.

Easy ways to save

With GET, you can save in the way that best fits your budget. You can set up a monthly payment plan, make one lump sum contribution, add funds whenever you have extra money to contribute, or choose a combination of approaches. You can open an account for anyone – your child, grandchild, friend or even yourself. The only requirement is that either the account owner or the student is a Washington resident at the time of enrollment in the program. Family members can help too – a GET contribution makes a great gift.

¹ The payout value of GET units is based on resident undergraduate tuition and state-mandated fees at Washington’s most expensive public university (University of Washington or Washington State University). The state does not guarantee that you will make money. If in-state tuition decreases in the future, Tuition Units may lose value.

² Review IRS Publication 970 and GET Program Details Booklet or www.get.wa.gov for a list of qualified higher education expenses.

³ Earnings on nonqualified and certain other refunds are subject to federal income tax and may be subject to a 10% federal penalty tax, as well as state and local income taxes. The availability of tax or other benefits may be contingent on meeting other requirements.

⁴ The 95,000 account figure represents current, active accounts as of October 2017 (it does not include accounts that have already had all units used to pay for college expenses or that have been refunded). The \$2.3 billion figure represents the value of the GET fund, including the current value of all future receivables for Custom Monthly contracts, as of June 2017.

100 GET units purchased today = 1 year of future tuition **GUARANTEED.**

How GET works

GET unit payout value

GET works on a unit system, with 100 GET units equal to one year of resident, undergraduate tuition and state-mandated fees at Washington’s most expensive public university. Currently, the highest annual tuition and state-mandated fees at a public university in our state is \$10,386, meaning that the current payout value for one GET unit is \$103.86 (or 1/100th).

GET’s guarantee

Choosing GET means that your account value is not based on stock market performance. That’s what makes GET different from other savings plans. GET guarantees that when you buy a certain amount of tuition, you will have that same amount of tuition covered in the future, no matter how much the cost changes over time.¹ By state law, this guarantee is backed by the full faith and credit of the State of Washington.⁴ That means if GET ever needs to pay out more money than it has available, the Legislature must cover the shortfall.

Buying GET units

You can buy anywhere from one to 600 units per student (even partial units). You can add units all at once, over time as you have money available, through monthly payments, or through a combination of approaches. Annually, the GET Committee sets the unit purchase price, currently \$113, based on an actuarial formula that considers a variety of factors.

2017-2018 GET UNIT PRICING ⁵	
Expected tuition cost	\$94.34
Operating expenses	\$4.18
Reserve	\$14.78
TOTAL UNIT PRICE	\$113.00

⁴Revised Code of Washington 28B.95.050.

⁵ Office of the State Actuary (2017). The total unit price is rounded down to a whole dollar amount.

How GET operates

As a GET customer, while you are protected by the state guarantee, you can take comfort in knowing that GET carefully manages your contributions to ensure the program is self-sustaining. The GET Committee works closely with the Office of the State Actuary to appropriately price units and with the Washington State Investment Board to invest GET contributions responsibly. The program hopes to never need state assistance, but your GET account is protected no matter what happens.

Important considerations

While your GET account is guaranteed to keep pace with tuition and is protected from stock market risk, GET does not guarantee that you will make money. Here are some points to consider before choosing GET for your college savings:

- When you buy a GET unit, you pay more than the current payout value, meaning it may take several years for your account value to exceed the price you paid. This is why many GET customers open accounts for students who are grade-school age or younger.
- History shows that tuition will likely keep increasing over the long-term, but it may not increase every year. For example, tuition prices fell at our state’s public colleges and universities in the 2015-2016 and 2016-2017 academic years. Because GET never anticipated tuition dropping, the Legislature gave GET a one-time authorization to keep customer accounts from going down in value with tuition. Any potential future tuition decreases, however, could cause your units to lose monetary value.

YOUR GET ACCOUNT IS GUARANTEED TO KEEP PACE WITH IN-STATE TUITION PRICES

Because the GET payout value is directly related to in-state tuition, your account will keep pace with long term tuition inflation.

^{*}100 GET units equals one year of resident, undergraduate tuition and state-mandated fees at Washington’s most expensive public university.

^{**}The projected 2018-19 tuition and state-mandated fees are based on the enacted 2017-19 State operating budget.

Individuals with higher levels of education earn more, pay more taxes, and are more likely than others to be employed.

Source: College Board 2017

Saving more can help you borrow less

Reduce the need for student loans

A recent nationwide survey found that nearly 86 percent of families “always knew their child would go to college,” yet only 39 percent of families made a plan to save for college.⁶ In the meantime, families continue to take on more debt to help pay for increasing college costs. Nationwide, total outstanding student loan debt is at an all-time high of \$1.45 trillion.⁷ The average college graduate in Washington today faces over \$24,000 in student loan debt.⁸ This debt can create a significant burden for young adults at the start of their careers.

Making a plan to save while your student is still young is the key reducing reliance on future borrowing. It's also important to be realistic in setting savings goals. Too often, families wait to save, because the thought of paying for college can seem overwhelming. The reality is that most families will not be able to save enough to cover every future college expense, and that's okay. Most families rely on a combination of efforts to pay for college, including financial aid, scholarships, loans, income, and savings.

Saving even a little helps a lot

A commitment to saving for college can be difficult to make, especially for young families with tight budgets. Ask parents of college students, however, and they'll confirm that every little bit helps. Contributing regularly to your GET account can add up over time and help your student achieve higher education by making college more accessible and affordable. Whether you save enough to cover tuition, provide for a semester abroad or simply reduce the amount of student loans, you'll value the effort for years to come. Here are some ideas to get started:

Skip the latte and brew your own coffee. That could free up over \$1,000 per year to contribute to your college savings.⁹

The average **income tax refund** in 2016 was just over \$2,800.¹⁰ Set that aside and give your savings a great boost.

Just \$5 a day for ten years could give you over \$18,000 more to contribute to your college savings, and that doesn't even include any potential savings growth.

⁶ "2017 How America Pays for College" (Sallie Mae, 2017)

⁷ "Consumer Credit - G.19: August 2017" (The Federal Reserve, 2017)

⁸ "The Project on Student Debt" (Institute for College Access & Success, 2017)

⁹ Calculation assumes a \$4.25 difference between the cost of a latte vs. brewing your own coffee; and an average of 250 working days in a year.

¹⁰ "2017 and Prior Year Filing Season Statistics" (Internal Revenue Service, 2017)

Start early and save

You can enroll newborns year-round, up to their 1st birthday. Family members often like to recognize the birth or special milestones of a baby's first year with a lasting gift. Opening a GET account that family and friends can contribute to is a perfect choice. Gift announcements are available for you to download from our website.

Did you know you can open a GET account even before your child is born? Just open an account during the enrollment period, naming yourself as both the account owner and student beneficiary. You can change the name of the student once your child is born.*

Plan ahead for your family. Another simple start to your college savings is to open one account that can be used to save for all of your future children. Make contributions as you wish over time, then transfer Lump Sum amounts to new accounts that you open for each child later on. Families who start early have more time to contribute, and watch their savings add up.

* For changes to the student on your account to occur free from federal or state income taxes, the new student must be a family member of the original student. See the Program Details Booklet for a definition of family member.

Use your GET units at nearly any public or private college, university or technical school in the country.

Includes all colleges listed with FAFSA (fafsa.ed.gov).

Use GET for a variety of college costs

How you use your GET units is up to you

No matter what your future plans are, GET is a solid savings foundation because it's guaranteed to keep pace with in-state tuition prices. You can buy from one to 600 units per student and use up to 150 units per year. Any unused units from one year automatically roll over for use in the following year.

While GET's unit payout value is based in-state tuition and state-mandated fees, you can use your units in a variety of ways. Regional and community colleges require fewer units, while private or out-of-state universities generally require more. If your school's tuition costs more than the value of the units you have available, you pay the difference. If you have more units than you need for tuition, you can use GET to pay for other qualified higher education expenses such as room and board, books, computers, and supplies.

Most families will not be able to save enough to fund all college costs, but saving regularly over time can add up. The average GET account contains a little less than 200 units. Whether you can save for a full two or even four years of tuition, or just enough to help your students cover the cost of books and supplies, you can help to make their dreams come true. Funding your GET account with the amount that fits in your budget is the best approach. The important part is to start early and save often.

What GET units can buy

No matter how much you are able to save with GET, there are a variety of higher education expenses that you can pay for. Here are just a few examples that show the flexible ways that you can use a GET unit:*

600

Five years of tuition and all required fees at UW or WSU, plus extra to go towards books, supplies and room and board.

400

Four years of tuition and state-mandated fees at UW or WSU.

200

Almost two years each (four years total) of tuition and state-mandated fees at an in-state community college and an in-state regional university.

100

About a year of on-campus room and board at a Washington public university.

75

About two years of tuition and fees at an in-state community or technical college.

55

About one year of tuition at a non-profit online university.

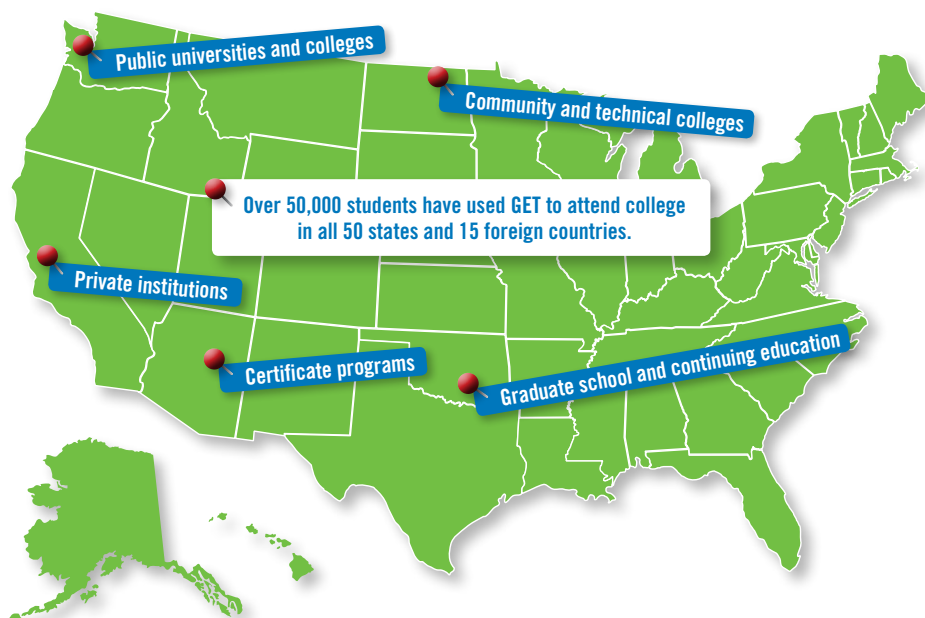

25 Units

About two to three years of books and supplies at an in-state public university.

*Examples shown are estimates based on the cost of various college expenses as of September 1, 2017. Actual future costs may vary. You may use additional units for other qualified higher education expenses as defined in IRS Publication 970.

USE GET NATIONWIDE AT THE SCHOOL OF YOUR CHOICE.

You can use GET at nearly any public or private college, university or technical school in the country, and even some foreign countries too. The unit payout value is the same, whether your child attends an in-state public college or an out-of-state private university.

Since 1998, GET has paid out over **\$1 billion** to help students cover college costs.

“GET makes it easy to save for our three girls. Their grandparents love to give money toward their college funds, too.”

The Freeby Family, Olympia

Explore your saving options

With GET, you can set your college savings goals realistically. Custom Monthly Plans start at \$49, and automatic monthly withdrawals from your bank account can be set up for any amount for Lump Sum Plans. Perhaps you have money set aside to get your college savings started, and then plan to contribute more over the coming years. Tax refunds, birthdays and holidays can all be opportunities to add to your account. **Remember that no matter how much you save, even a little can make a big difference.**

Three easy ways to save

1 Lump Sum Plan. GET’s “pay as you go” plan lets you purchase any number of units (from one to 600) whenever you choose. You can even buy partial units at any time, though you must purchase at least one unit when you first open your account. Whenever you buy units in “Lump Sum,” you pay the unit price (currently \$113) that is in effect at the time we receive your payment. The unit price is set annually, and may also be adjusted once annually, to ensure the actuarial soundness of the program. You must hold your Lump Sum units for at least two calendar years before you can use them.

2 Custom Monthly Plan. By contributing a set amount monthly, your units can add up as your child grows. GET’s defined monthly payment plan features a monthly payment that remains the same throughout the term of your contract. You can contract for 50 to 600 units (in 50 unit increments) with your choice of payment term (between one and eighteen-years). Your contract locks in the current \$113 unit price. The monthly payment amount includes a 7.5 percent finance charge,¹¹ so it’s best to choose the shortest payment term you can comfortably afford. That way you can save on total finance charges. To use your units, your contract must be paid in full and your account must be open for at least two calendar years.

3 You can always choose to save both ways. If you open a Custom Monthly Plan account, you can add Lump Sum units at any time. If you open a Lump Sum account, you can add a Custom Monthly Plan later. Our website features a Payment Calculator to help you decide which plan(s) fit your budget.

THE UNIT PRICE INCLUDES A PREMIUM.¹²

It may take several years before the payout value surpasses your original contributions. Washington’s current tuition policy states that annual tuition increases may be no more than the state’s average annual growth rate in median hourly wage.

Several payment options available

Automatic monthly withdrawal. You can have money automatically withdrawn each month from your bank account and deposited directly into your GET account. You can choose to pay your Custom Monthly Plan amount, or make a payment of any amount to regularly purchase Lump Sum units. Just sign up online or complete an automatic withdrawal authorization form on our website. Note that we take Custom Monthly Plan payments out of your bank account on the 15th day of each month.

Payroll deduction. You can have money deducted from your paycheck and deposited directly into your GET account. If your employer already participates in GET payroll deduction, simply complete the payroll deduction authorization form, available on our website, and submit it to your employer’s payroll department. If your employer does not yet participate, suggest it to your human resources department. Let us know too and we’ll be happy to forward to your employer all the necessary information.

Online payments. You can transfer money at any time from your bank directly to your GET account through our electronic bank transfer system through US Bank. This method is often used by giftors who want to make a contribution to an account. The bank charges a \$1 convenience fee for each transaction, and you may make payments on up to four accounts per transaction. You can also set up payments to GET through your own bank. Visit our website or call us to learn more.

Payment coupons. If you prefer to mail your payment, let us know and we can send you a book of payment coupons. When you need to make a payment, just send us a coupon with your check or money order by the 15th day of every month for the Custom Monthly Plan or use these coupons whenever you have extra money to contribute to the Lump Sum Plan.

¹¹ The 7.5% finance charge is compounded annually. The monthly payment also includes a small interest adjustment and a \$1.54 payment processing fee and is rounded to the next whole dollar.

¹² GET is a self-sustaining program that helps families buy future tuition. The unit price, which includes a premium above current tuition, takes into account estimated future tuition, projected inflation and investment returns, and administrative costs. It also includes a stabilization reserve to adjust for periods of lower-than-expected returns or higher-than-expected tuition. The premium assures stability for the GET program. You may need to hold your units for several years before the unit payout value exceeds the unit purchase price.

I'm so glad I began saving for my kids when they were little.
Payroll deduction made it so easy I didn't even have to think about it."

The Hurley Family, Olympia

Top 10 most frequently asked questions

1. Can GET be used at private colleges or out-of-state universities?

You can use your GET units at nearly any public or private college, university or technical school in the United States and at selected colleges in other countries. A college is eligible if it participates in federal financial aid programs through the U.S. Department of Education. To view participating schools, visit the "school search" page at www.fafsa.ed.gov.

2. What if my child gets a scholarship?

You have several options. If your child's scholarship covers tuition and fees, you can use your GET units to pay for room and board, books, or other qualified higher education expenses. You can also transfer the account, in whole or in part, to another family member.¹³ You can request a refund (see our Refund/Cancellation Policy for details).¹⁴ You can also wait up to ten years to see if your child may want to apply GET funds toward graduate school.

3. How will GET savings affect our financial aid?

If the parent or dependent student is the account owner, GET is considered a parental asset and has a smaller impact than student assets or income when determining financial aid eligibility. Distributions from GET accounts owned by non-parents may be treated as student income the following year and may have a greater impact. We encourage you to consult your financial advisor or the financial aid office at your school for more specifics.

4. What if I can't make my monthly payments? What are my options?

If you can no longer make payments on your Custom Monthly Plan, you may have the option to 1) convert to a Lump Sum Plan and end your monthly payments, 2) reduce the total number of units in your contract to lower your payment, 3) increase the number of years in your contract to lower your payment, or 4) close the account and request a refund.¹⁴ Please review our Program Details Booklet and Refund/Cancellation Policy or call us for details and options for your account.

5. What if my child chooses not to go to college?

You have several options. Students have up to ten years after their selected benefit use year to begin using their GET account. Many students who aren't ready for college upon high school graduation change their minds. You can transfer funds in the account to another family member with an existing account, or change the student beneficiary on the entire account to another family member.¹³ You can request a refund, though you will need to pay taxes on any increase in value as well as a refund penalty.¹⁴ Please review the Program Details Booklet and the Refund/Cancellation Policy for details.

6. How do I know GET is safe?

The state guarantees that if you buy one unit today, it will be worth 1/100th of an academic year of future tuition and state-mandated fees at Washington's highest-priced public university. If future tuition increases ever require the program to pay out more money than it has available, the Legislature would be required by state law to provide funding to cover the shortfall (RCW 28B.95.050). GET is self-sustaining and does not rely on general state funds. We carefully evaluate the unit price up to twice annually to ensure that future college funds will always be there for GET families. Note that GET does not guarantee that you will make money. In the event that tuition at Washington State's highest priced public university decreases, the monetary value of your units may decrease.

7. Are units the same as credits?

GET units are not the same as credit hours at a college, university or technical school. Credit hours have an academic value. Credits vary between schools and represent an academic year or degree requirements. GET units have a dollar value. You buy GET units at a set price today and whenever your child attends college, the dollar value of your units will be based on tuition costs at that time, no matter how much they have changed. One unit equals 1/100th of the actual cost of resident, undergraduate tuition and state-mandated fees at Washington's most expensive public university.

¹³ For student changes to occur free from federal or state income taxes, the new student must be a family member of the original student. See the Program Details Booklet for a definition of family member.

¹⁴ Earnings on nonqualified and certain other refunds are subject to federal income tax and may be subject to a 10% federal penalty tax, as well as state and local income taxes. The availability of tax or other benefits may be contingent on meeting other requirements.

According to a recent nationwide survey: “Nearly 100% of families agree college is an investment in the student’s future.”

Source: Sallie Mae (2017)

VISIT OUR WEBSITE FOR MORE FAQS.

8. How many units should I buy?

You can buy a minimum of one unit to a maximum of 600 units per child, in full or partial unit increments. You can use up to 150 units each academic year. Any unused units from one year will automatically roll over to the next year.

The reality for most families is that college costs are covered by a combination of efforts, including savings, part-time work, scholarships, loans, and grants. Whether you can afford 25 or 600 units, you are helping to make college dreams a reality for your child.

9. How do I use my GET units?

When your student is ready for college, we'll send you information on how to use your units. You will complete a Direct Payment Request if you want GET to send money directly to the school, or a Reimbursement Request if you have paid college expenses from your own funds. You must hold your units for at least two years before using them. If you have a Custom Monthly Plan, it must be paid in full before using your units. As the account owner, you maintain control of your account and are the only one who can request account changes, distributions or a refund.

10. How is the unit purchase price set? Why is it higher than the payout value?

The GET Committee sets the unit purchase price with the input of an actuarial formula that takes into account estimated future tuition, projected inflation and investment returns, and administrative costs. It also includes a stabilization reserve to adjust for periods of lower-than-expected returns or higher-than-expected tuition. The GET Committee sets the unit price annually, and may adjust it once annually, if needed, to ensure financial stability for the program.

The payout value of a GET unit is established at the beginning of each academic year when the state public universities set their tuition rates. Each year, the payout value of a GET unit represents 1/100th of the actual resident, undergraduate tuition and state-mandated fees at Washington's most expensive public university.

Today's unit purchase price is higher than the current payout value because the state guarantees your GET account will keep pace with tuition in the future, no matter how much it changes. This premium over current tuition ensures stability for the program.

GET's guarantee ensures that the amount of tuition you buy will cover the same amount of in-state tuition in the future. While GET does not guarantee that you will make money, many risk averse savers with ample time to save take comfort in knowing what they have purchased in advance, without worrying about what happens with stock markets or in-state tuition costs in the future.

GET makes a great gift

Grandparents and other friends and family members can easily contribute to a child's GET account online or by mail. It's the perfect gift for special occasions such as baby showers, birthdays and holidays. Giftors can contribute to an existing GET account, or start a new account for a child. In fact, over 14% of GET accounts are opened by grandparents or other family members who are not the child's parents.

The gift of education is one that will open doors to a world of opportunity and is sure to last a lifetime.

It's never too early to plan ahead.
College is an investment for a lifetime.

Enroll now

Enroll online and pay no enrollment fee

Enrolling is easy and only takes an average of 15 minutes.

Plus, when you enroll online, you do not pay the \$50 enrollment fee. Just click "Enroll Now" on our website. You can set up a Lump Sum or Custom Monthly Plan, choose how many units you want to buy, then set up an electronic funds transfer, automatic withdrawal, or send us a check or money order to get your account started. It's that easy. You can view your account status and change certain account information online whenever it's convenient for you. You can also email us at GETInfo@wsac.wa.gov or call our Contact Center (**1.800.955.2318**) during business hours for personal assistance.

You will need the following information:

- **About you (Account Owner)**
Social Security number and contact information, including email address
- **About your student (Beneficiary)**
Social Security number, contact information, date of birth and projected benefit use year
- **About your plan selection**
Lump Sum Plan or Custom Monthly Plan

Additional enrollment information

You can also enroll by mail with a paper enrollment application. We charge a \$50 non-refundable enrollment fee for each paper enrollment application. You may qualify for the \$100 maximum family fee if the same account owner opens accounts for more than two students living at the same address. You can pay the enrollment fee by check, enclosed with the paper form.

Please thoroughly review the GET Program Details Booklet before you enroll. After you enroll, you will receive a welcome email confirming your enrollment within two weeks. If you plan to make your payments by paper check and request a coupon book, your coupon book will follow within either a few weeks (Lump Sum Plan) or 2-3 weeks before your first payment due date (Custom Monthly Plan). Your account can usually be viewed online within ten business days.

Enroll online and pay **no enrollment fee**
(paper application enrollment fee: \$50)

Important dates

Opening an account

November 1, 2017

The 2017-2018 enrollment year begins. You can open an account at the \$113 unit price.

May 31, 2018

The 2017-2018 enrollment year ends. If you enroll online, you must complete your enrollment by midnight PT on May 31. If you enroll by mail, your enrollment form must be **postmarked** by May 31.

*Online enrollment gets congested during the final week of the enrollment period.
To avoid frustration, please enroll early.*

Buying units for your account (If your account was opened on or before May 31, 2018)

June 25, 2018

June 25 is the last day to buy Lump Sum units at the \$113 unit price. We must **receive** your payment by June 25 (***we do not accept June 25 postmarks***). If we receive your payment after June 25, there will not be sufficient time to process the payment before the July 1 unit price change.

July 1, 2018

The GET Program may increase the unit price for new unit purchases. Call our Contact Center for details, or check our website.

Enrollment dates and unit price for 2018-2019

Annually, the program will announce an enrollment period. The GET Committee sets the unit purchase price annually and may also adjust the unit purchase price once during the year, if necessary, to ensure the actuarial soundness of the program. The dates for the 2018-2019 enrollment period and the corresponding unit price will be available by fall 2018. Please check our website or call our Contact Center for details.
